

GREATEST STRIKE IN THE HISTORY OF THE COUNTRY

It Now Looks As If the Order Calling Out 142,000 Men In the Anthracite Coal Field Will Be Issued Tonight From Scranton, Pa.

OPERATORS OF COMBINE WILL NOT YIELD

Working Miners Made the Last Desperate Effort Yesterday In Offering to Arbitrate. But the Companies Absolutely refused.

Indianapolis, Sept. 8.—[Special Telegram]—The mine workers' executive board went into secret session an hour and a half earlier than usual this morning. At ten o'clock President Mitchell came from the conference room and said:

"There is nothing to give to the public at this time. There is no change in the situation since last night."

It now looks as if the order calling out 142,000 men in the anthracite field will be issued late tonight.

At noon word had been received from the operators indicating that they will yield.

Greatest Labor War

Scranton, Pa., Sept. 8.—[Special Telegram]—Unless something akin to a miracle happens the whistle blast which calls the men from the hard coal mines at 5 o'clock this afternoon will announce the beginning of one of the greatest labor wars in the history of the country.

The miners made the last desperate effort yesterday when they agreed to the arbitration plan of Father Phillips of Hazleton who suggested that a committee treat with the operators. The companies absolutely declined.

No Way to Settle It

Indianapolis, Ind., Sept. 8.—The national board of the United Mine Workers of America adjourned at 6 o'clock last evening after an all day session devoted to the anthracite situation. No strike order was promulgated.

The office of John Mitchell, president, where the board sessions were held, was deluged with telegrams all the afternoon from leaders in the anthracite field urging a general strike order by the board, but the national officers say they do not intend to act until the last moment. At 6 o'clock this evening the time limit of

ten days expires and a strike, if ordered, under the rules governing applications for such a strike as the one contemplated, must be declared before that hour.

Mitchell Talks of the Cost.

President Mitchell and the board members today are very cautious in their statements. Mr. Mitchell said:

"I believe that we can handle the anthracite miners as a body. There are 142,000 of them, and if they all go out at least 1,000,000 men will be affected, and the wage losses will aggregate fully \$1,500,000 a day. The anthracite coal carrying roads will lose freight traffic worth between \$10,000,000 and \$12,000,000 a month. The weekly output of the anthracite fields is more than 1,000,000 tons a week, so that the magnitude of a general strike will be great."

Ditcher Says Miners Are Starving

Fred Ditcher, a board member who has spent several weeks in the heart of the anthracite fields, says the men are determined to risk all on a chance of winning. "They take the position," said he, "that they may as well starve while idle, as they are starving anyhow. When men reach this conclusion they will make a desperate effort to win. I hope there will be no trouble such as the destruction of property or riots."

The strike order is expected before noon today. President Mitchell has announced that he will go to Hazleton and take personal charge of the strike if one is ordered.

Mitchell Certain of a Strike.

President Mitchell said this morning: "I said some time ago that in my opinion there would be a big strike. After talking with my colleagues all night I have no reason to change my opinion."

"The facts embrace three questions. Will all the men strike? How can the 500,000 people be maintained during the strike? And can the bituminous districts prevent coal from being diverted to aid the anthracite operators? All have been satisfactorily answered."

HEAVY HORSES FOR THE STATE FAIR

Alexander Galbraith Will Send Eighteen Head for Exhibit at Milwan. kee Tonight.

Alexander Galbraith will send eighteen head of heavy horses to Milwaukee tonight where they are entered at the state fair next week.

These horses are the pick of Mr. Galbraith's stables and should carry off a number of first prizes next week. The week after the Wisconsin state fair the horses will be shipped to Springfield, Ill., to the Illinois state fair.

Last week at the Iowa state fair held at Des Moines, Ia., Mr. Galbraith exhibited nine head of horses and secured four first prizes. It speaks well for the class of horses imported by Mr. Galbraith that in competition with horses from all parts of the country he secured eight ribbons and only exhibited nine head.

The horses will be shipped tonight and will be shown next week at Milwaukee under the supervision of Graham Galbraith, who has had charge of the stables during his father's illness and is working into the business.

Mr. Alexander Galbraith who has been seriously ill with stomach trouble is slowly recovering and is able to be out a little.

TEDDY'S VOICE FAILS AT GRAND RAPIDS

His Throat Worn by Excessive Labor Spoils the Effect of His Masterly Address.

Grand Rapids, Mich., Sept. 8.—Before 3,500 persons assembled in the Auditorium here last night Gov. Roosevelt's speech on campaign issues came very near being turned into a burlesque for the simple reason that the rough rider's voice failed and an involuntary falsetto which he tried vainly to suppress gave his hearers the impression that he was trying to be funny.

It so happened in the first part of his speech that the falsetto tone and some sarcastic references to Bryan and

the democrats came simultaneously. The audience not knowing Roosevelt's serious mood, thought the orator was trying to be humorous, and, once under this impression, his hearer laughed every time his voice piped a treble note. In some of the most sedate and earnest passages of his talk Gov. Roosevelt's voice failed to score in robust tones, and the consequent laughter spoiled the effect of his best lines, and threw the rough rider into a rage, which showed in his face and gestures.

To friends on the platform who knew that Gov. Roosevelt was suffering from a bad throat the effect of his best phrases upon the audience and the reflex irritation displayed by himself was most distressing. But the hero of San Juan hill succeeded in finishing his speech amid great enthusiasm and applause that lasted five minutes after he was silent.

SPECIAL TRAINS MUST BE PAID FOR

McKinley, Bryan and Other National Candidates Will Hereafter Pay Their Fare.

Chicago, Sept. 8.—President McKinley, William Jennings Bryan and the vice presidential candidate will have to pay railroad fare when they begin campaigning south of the Ohio river if the lines in the Southeastern Passenger Association maintain an agreement which was entered into yesterday.

At a meeting held in Memphis the passenger agents decided that it was time they obtained some revenue from specials used by presidential and vice presidential candidates, and that this year was a good time to make a beginning.

After discussing the policy which should be pursued it was decided that both parties should be charged at the rate of \$150 per train for every special used for campaigning purposes. At this rate it will cut pretty deeply into the finances of the parties when it comes to stumping the southern states.

The Southeastern Passenger Association embraces nearly every line—in fact, every line of importance south of the Ohio river and east of the Mississippi, and the territory affected is a vast one.

DESPERADOES SHOOT A CITIZEN

Captured by a Posse After a Thirty-Mile Chase.

Marion, Ind., Sept. 8.—Mart and Bill Nesbitt, brothers, who are desperadoes when drinking and who have terrorized the rural towns of Swayzee, Herbst and Point Isabel for several years, rode into Swayzee for the purpose of squaring a score with the town marshal, who had attempted to arrest them last week during the fair at that place. They were accompanied by Everett Leer, who is also a desperate character. Leer became so intoxicated that he was separated from the Nesbitts and placed in jail. The Nesbitts learned that Leer was in jail and they procured an ax and two revolvers from Pfank Stillwell's saloon and started for the jail. Stillwell discovered the loss of his revolvers and followed the Nesbitts down the street and demanded the return of his property. Mart Nesbitt shot Stillwell through the neck and arm, and the Nesbitts mounted their horses and rode away. Sheriff Bradford, with a posse of deputies, chased them thirty miles. The posse surrounded them and they surrendered. When captured they had five revolvers.

Burgers in Last Ditch

London, Sept. 8.—[Special Cablegram]—A bank movement of Ian Hamilton, Roberts says, caused the Boers to retreat from Lydenburg, thus allowing Buller to advance and occupy the town with comparatively little opposition. The Boers split, some going north to Krugersdorp, others east to Spitzkop. Officials of the war office believe that the Boers have now actually reached their last ditch. The dispatch reports the Boer commander, believed to be Theron, killed near Krugersdorp, just west of Johannesburg.

TO STRIKE BACK AT HIS CRITICS

McKinley's Letter of Acceptance Will Be Made Public Monday.

STRESS ON FILIPINOS

Tells What Has Been Done There and Why It Has Been Done.

GOES TO CANTON NEXT WEEK

Washington, Sept. 8.—President McKinley's letter of acceptance is to be published Monday morning. It promises to create a sensation. For the first time in his public career, probably, the president strikes back sharply at his critics. In a number of paragraphs he uses language which has a sting in it.

Mr. McKinley has borne in uncomplaining silence the great burden of responsibility thrust upon him by the war with Spain. He has done his best, unselfishly and patriotically, to discharge the duties imposed upon him by the people in solving the many complex and delicate problems with which he has been confronted.

Has Hewed to the Line

He has shirked nothing. He has sought no party advantage. He has hewed to the line. Last spring, when the criticism inevitable in a presidential year, first began to show itself in the opposition press, a certain matter came up for discussion at a meeting of the cabinet. One of the secretaries argued that the action which he favored would disarm the critics.

"I do not care anything about that," said the President, emphatically. "The other way is right, and, popular or unpopular, it is what we are going to do."

To Do

He went on to say to his advisers that this was the presidential year; that the white light was sure to beat fiercely, but that he had fully made up his mind and he wanted his secretaries to note his words and act accordingly, to drive straight ahead doing what he thought right in everything that came before him, be the consequences what they might.

"I will not surrender my independence of view and action even for another term in the presidency," he added.

aided to Answer

The President has been denounced as a trickster, as a tyrant, as a murderer, as a wine-bibber, as a mere player of politics. He has been condemned in one breath as too weak to have a policy, and in the next as a dictator, an imperialist, a would be emperor. Mr. McKinley is but human, and he has decided to answer some of his critics. Without losing his temper or his dignity he gets back at his reckless detractors in his letter of acceptance in most vigorous fashion.

Most of his letter is devoted to the Philippine question and its difficulties and he marshals the facts from the official records. He tells what he has done and then takes the country into his confidence and tells why he did it. The document is perhaps the strongest piece of writing that ever came from the president's pen. It is spirited and high-minded, and contains not a few sentences which will strike somewhere and hurt.

Going to Canton Next Week.

The President is going to Canton after the wedding of Miss Mabel McKinley in Pennsylvania next week. But he does not expect to remain there long. He has made no definite plans but will probably return to Washington within a week or ten days. His holiday is practically over. His presence here is likely to be demanded by the importance of public business most of the autumn. During the last fortnight the president has attended to the Chinese problem and written his letter of acceptance.

MANY CATTLE ARE AFFECTED

"Black Leg" Prevalent In Northern Wisconsin.

Milwaukee, Sept. 8.—State Veterinarian Clute of Marinette, who was in the city yesterday, reports that "Black Leg" is alarmingly prevalent among cattle in this state. There are fully twice as many cases as last year, the doctor asserts, mostly in the northern part of Wisconsin; and though the farmers are trying to prevent its spread by inoculation, the present situation is considered serious. The disease is usually fatal.

He will become a Jesuit and will enter the novitiate at Florissant, Mo., next week. Mr. Garesche's relatives are devout Catholics and the attorney has always manifested a tendency toward religion. It will take him from thirteen to fifteen years before he finishes his course for a Jesuit priesthood. One of his uncles is a Catholic priest, while an aunt is a mother superior in a convent.

WM. J. BRYAN IN MILWAUKEE TODAY

Democracy of Wisconsin Opens Its Campaign With a Picnic—Attendance is Very Large.

Milwaukee, Wis., Sept. 8.—The democracy of Wisconsin will open its campaign this afternoon with a picnic and with William Jennings Bryan present. It is expected to be the greatest gathering of its kind ever held in this city and it is to be sort of an interstate affair as the Cook county democratic club is to come up on a special train along with a large delegation of Chicago democrats. The picnic took place at rational park and Mr. Bryan and other speakers were heard. After the speeches there were games and there will be a grand jollification this evening. The managers now estimate that there will be an attendance of 50,000 from this city and surrounding country.

The presidential candidate and the Chicago visitors arrived at 1 o'clock and were met by the Milwaukee democratic organizations. There was a parade through the main streets.

Among the speakers announced are Mayor Carter Harrison, Louis Gustav Bohmerich, democratic candidate for governor; Thomas Taggart of Indianapolis, Mayor William Maybury of Detroit, Mayor George Parry of Grand Rapids and Judge Tarvin of Kentucky.

La Follette Cannot Go

DEADLOCK IN THE SECOND DISTRICT

Democrats in Convention at Watertown Have Taken 229 Ballots—Bechaud Lacks One Vote.

Watertown, Wis., Sept. 8.—At 12:15 yesterday morning the Second congressional district convention adjourned until 10 o'clock this morning without having nominated a candidate for congress after an exciting meeting.

Two hundred and twenty nine ballots had been taken and on the last twenty-six, Bechaud, the Jefferson county candidate was within one vote of the nomination.

Brief sessions were held at 8, 9, 10, 11 and 12 o'clock, but the deadlock which has existed since Tuesday was still unbroken, although it was believed at the time a nomination would be made before morning.

To an outsider it looks as if either Jones or Boddien will be the nominee with the odds on the latter. A break must come from Dane and if it does Bechaud will not get a vote, and it is more than likely that the Horicon man will in that contingency win.

Roosevelt Storms Allegan

Allegan, Mich., Sept. 8.—[Special Telegram]—Governor Roosevelt stormed Allegan today, speaking to a large crowd at Centennial Park.

FORAKER OPENS OHIO CAMPAIGN

Paramount Issue Is the Administration of President McKinley.

PARADE 4 MILES LONG

Senators Hanna and Depew Also Speak to Crowds At Youngstown, O.

WILD ENTHUSIASM PREVAILS

Youngstown, Ohio, Sept. 8.—[Special Telegram]—Senators Hanna, Depew and Foraker, who opened the Ohio republican campaign here today, arrived from Cleveland at 10 o'clock. Governor Nash came at the same hour on a special train from Columbus. They were met by an escort committee and the Foraker club and taken to the residence of

SENATOR FORAKER.

Colonel Caleb B. Wick, where they were entertained at luncheon. Then they took part in a parade, which was estimated at four miles long.

Depew, Hanna and Taylor.

Governor Nash acted as president of the day and made a short address, concluding by presenting Senator Foraker, who made the principal address of the meeting.

Late this afternoon a second speakers' stand was erected in Wick Park, where an overflow meeting was held addressed by Senator Depew, Senator Hanna, Congressman R. W. Taylor and other republican leaders. A public reception will be tendered the speakers this evening.

Foraker Spoke to 10,000.

Senator Foraker in his speech, which was listened to by 10,000 people said:

The paramount issue of this campaign is the administration of William McKinley. Shall it be endorsed or repudiated? That is the question.

Money, tariff, trusts and so-called imperialism are each and all, important subjects, but none of them can be segregated from the others and voted upon by itself. In other words, the democratic party can not be restored to power, as to the proposition and be excluded from power as to others. It must go in "foot, horse and dragon" and vote as to all.

You can not adopt its view as to the Philippines without at the same time accepting free silver. You can not agree with it about trusts and differ as to "government by injunction." The proposition that "the constitution follows the flag," coupled with free trade, and their innovations, about the Declaration of Independence and the consent of the governed men who are to be governed in the far distant isles of the sea are coupled with a defiant denial of the constitution, and a brutal denial by violence, rapine, blood and murder of the most sacred rights of the nation who have perished their lives for the flag and with gallant heroism won home and refuge for the republic on the battlefields of the nation.

To make a long story short, you can not vote a mixed ticket or have a mixed result. You must choose between republicanism on the one hand and democracy on the other—not democracy in this, that or the other particular, but democracy in all particulars. It is therefore the duty of every voter to survey the whole field, and then, with the net results in mind, determine whether the present administration shall be continued.

INDUSTRIAL EXPO. OPENS THIS EVENING

Governor Scofield, Mayor Rose and Perhaps Wm. J. Bryan Will Make Speeches Tonight.

Milwaukee, Wis., Sept. 8.—The Milwaukee Industrial Exposition will open its doors to the public this evening for a season ending October 13. A large attendance is looked for, as a grand concert will be given. Manager Trump has sent an invitation to William Jennings Bryan, but he had received no answer last evening. The fact that Bryan was here today, and that he has no other known engagement for the early evening hours makes it probable that he will attend the Exposition. Should he do so, he will doubtless make a brief address.

The opening exercises will be at 8 o'clock. Before that hour Governor Scofield and staff, and Mayor Rose and the city officials will be escorted to the building from the Hotel Pfister by the local military companies. Governor Scofield will deliver an address from the south balcony and Mayor Rose will respond in behalf of the city. The machinery will be started as soon as the speeches are over.

DOCTORS VS. LAWYERS

Positively the Last Engagement At
Athletic Park This Afternoon—
Good Crowd In Attendance.

Positively the last engagement of the doctors and lawyers will take place at athletic park this afternoon. The question as to whether the doctors or the lawyers are the champion ball players of Janesville, will be settled today. Ever since the ball game in which the doctors were successful, the lawyers have been practicing on the quiet and think they have a team that is invincible. The doctors have not been idle and the game this afternoon promises to be one that will be long remembered in sporting circles. At any rate the question of supremacy will be settled for this season. It is sure to be a great contest and the work of batteries will alone be worth the price of admission and professional pitchers and catchers can get a few points on the correct way to play the game.

The game was called at three o'clock with a good crowd in attendance. Two cents admission was charged, no extra charge being made for the grand stand.

Amos W. Thomas died Tuesday at the home of his daughter, after a brief illness. He was the father of Prof. W. D. Thomas of the college faculty and came to Milton about two years ago. He was a hard working man despite his age, and gained the respect of all with whom he came in contact. His remains were taken to his former home at Shioh, N. J. by his son and daughter on Wednesday.

The fall term of Milton college began Wednesday with its usual number of attendants. Representatives have already registered from Japan, Illinois, Kansas, Minnesota, South Dakota, Nebraska, New Jersey, New York, Louisiana, Missouri, Arkansas, Iowa and Wisconsin.

The concert Thursday evening by the combined Evangelistic quartettes, assisted by Miss B. E. Clarke and J. Fred Whitford was a success. The program included solos, duets and quartettes, readings and mandolin selections, and where all acquitted themselves so creditably individual mention would be out of place.

Cleanest in America.

The Lackawanna Railroad is the cleanest railroad in America. Even though it cared little for the comfort of its passengers, which it does, it probably would burn hard coal, for the reason that it owns the most extensive anthracite coal mines in Pennsylvania, and it is cheaper for it to burn hard coal, which makes no smoke, than soft. At any rate, there is no smoke from its locomotives. It is built for the most part through the mountains where rock is the material easiest of access, and its road-bed for that reason is rock-ballasted. There is therefore, no dust. These two things are of unusual interest to the traveler by the line, for the reason that on no other road in the United States is there stronger incentive to keep one's eyes upon the passing scene. It is said of this line truthfully that every mile is picturesque. It traverses the agricultural region of Western New York, the valley region of Central New York, the mountain region of Pennsylvania and New Jersey, and every mile offers a view that is beautiful, interesting and entrancing. In point of comfort its passengers are particularly fortunate, for, in addition to there being no smoke or dust, the cars are roomy and scrupulously clean. Sleeping cars, parlor cars and dining cars offer all the conveniences and comforts of modern travel.

NEW YORK MURDER MYSTERY.

Police Think the Victim Was Possibly Crucified.

New York, Sept. 8.—The North River tide yesterday brought to the shores of New York another murder mystery. The victim's name is believed to have been August Eichen. The body, with gashed throat and lacerated hands, bumped against the pier at the foot of Twentieth street. The fact that both hands are punctured as with a sharp spike adds to the mystery. To the police it looks as if the man had been crucified. One hour after the body was discovered it was in the morgue, and Central office detectives were at work trying to trace the crime to its author. The police have little doubt that Eichen, who that is his name, was murdered. They have no doubt, either, that he made a fierce fight for his life. The gashed hands indicate that. In the right vest pocket was a small slip of paper that had been folded to the size of a postage stamp. On this paper in capitals are the letters "L. F. I. K." Under these letters are the capitals "B. K. N. K." The police are puzzled at the strange characteristics. They believe these letters signify something that "Eichen" was expected to do by a society. It was suggested last night that the man might have been an anarchist, who had fallen a victim to disobedience to his order. The police also have an idea that "Eichen" met his successful rival in love and was murdered.

SAY HEIRESS IS DRUGGED.

Judge Lent Will Investigate Treatment of Georgianna Wendell.

New York, Sept. 8.—Three times Judge Smith Lent of Westchester county has issued orders for the production of Miss Georgianna Wendell and her guardians in court. Three times the lawyers have deferred his orders. Finding that his writ was worthless, since no one paid any attention to it, he determined yesterday to visit the place where Miss Wendell was sequestered. The woman's brother says she is insane and must be kept under restraint. Other relatives and friends declare that she is of sound mind and is being held a prisoner by those who wish to get her part of the \$40,000,000 estate left by her mother. Mr. Digney, Miss Wendell's counsel, in a bitter speech yesterday denounced those who are holding Miss Wendell. "I have positive proof," he said, "that this woman is being systematically poisoned, kicked and cuffed around and beaten unmercifully, and kept in a room where even a breath of fresh air is refused her. Your Honor, I can show you affidavits proving that Dr. Egbert Guernsey is administering drugs that are doing her a great deal of harm."

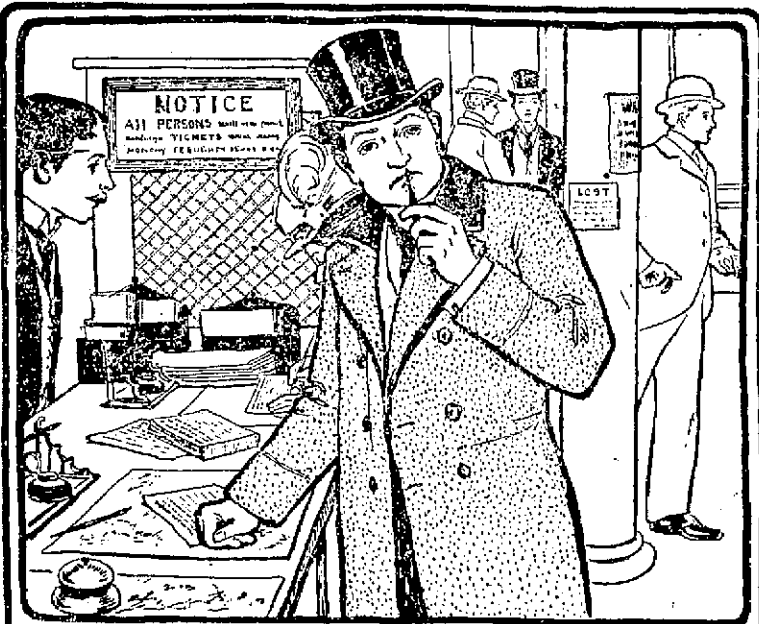

Judge Lent said that, in company with Morris S. Thompson, one of the lawyers for John Wendell, he would visit Miss Wendell today.

HOW TO ECONOMIZE.

SOME men economize so closely on the number of words in a telegram that the receiver cannot understand it. This is not sensible economy. Neither is it sensible economy to ruin garments of value with cheap soap or powerful chemicals that eat into the fabric. True economy uses Ivory Soap in the laundry. It is the most of pure soap that can be sold for the money. Chemically it is as innocent as water. Yet it does everything you can ask of a soap. Try it!

BRYAN IN CHICAGO.

Democratic Leader in Conference with Campaign Chairman.

Chicago, Sept. 8.—W. J. Bryan arrived this evening from his West Virginia campaign trip. He immediately went into consultation with Chairman Jones. To the latter he expressed himself as encouraged at the outlook in Maryland and West Virginia. At Wheeling, last night, he was greeted with red fire, booming of cannon and blowing of whistles. The demonstration was greater than any in that city during the campaign of 1896. In his speech last night, the Democratic leader treated extensively on the peace ratification treaty and his attitude at the time.

Drying preparations simply develop dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c. size. Ely Brothers, 55 Warren St., N.Y.

The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation. With Ely's Cream Balm you are armed against Nasal Catarrh and Hay Fever.

A Rock county soldier boy, now in the Philippines, writes his democratic father to the effect that when November comes "You and Bryan will be all there is left to the democratic party." Evidently this young man, who is "on the spot" thinks well of our new possessions, and is not afraid that he will be compelled to dance to the fiddling of an emperor.

Beloit Free Press.—Senator John M. Whitehead was renominated by acclamation at the Twenty-second senatorial district republican convention at Milton Junction, Wednesday. This action, which had not been in doubt, ensures to the state the legislative services of a gentleman preeminently qualified for the conduct of public affairs.

In view of the fact that a rumor is current to the effect that a grand jury is to be called, it might also interest some people to know who owned, operated, plugged for and protected the nickel in the slot machines that have been in operation in Janesville off and on for some months past.

A New York man has discovered that freezing bay fever microbes will prevent the disease. This being the case, a permanent cure would naturally follow freezing the patient. Will some patriot step forward and try the experiment. We would all be glad to know how it works.

Hawaii has closed its last school for teaching the native language. Hereafter young Hawaiians will be taught to talk English and be good American citizens.

If President Cleveland should declare for Bryan, the democratic papers would have a great deal to recant in the form of fervid utterances in 1896.

Andrew Jackson, it now appears, was also called an "imperialist," yet democracy reveres his name. Oh, consistency, thou art indeed a jewel!

"And this," said one of the crackmen as he bored a hole in the Buob safe, "is just like working in a brewery."

Abolish the city charter, and repeal all the laws. What is the use of maintaining them?

Bryan also appears to represent every Debsism except the cucumbers.

And the safe blowers are still safe.

FOR FARMERS TO DECIDE.

By the best figures obtainable by the American Economist it appears that the farmers of the country paid over \$800,000,000 in the shrinkage in the value of their live stock alone as a part of the price of the election to the presidency of Grover Cleveland on a free trade

platform in 1892. Most of this loss they have made good since free traders received a knockout blow in 1896 and protection returned to its own again. If the farmers have more money and more prosperity now than they want and would like to get rid of it, the surest way in the world is to vote for Bryan and free trade this fall. It wouldn't take long under Bryan and free trade for like stock to become of as little value as it was in the days of Cleveland. But if, on the other hand, the farmers of the country want to keep what they have and add to it, they need to stand by the policy which gives the American market to the American people, and which, by bringing work and money and prosperity to the industrial workers of the country, creates a strong home demand for the products of the farm.

DAILY MAILS WILL BE SENT TO EUROPE

Ex-Postmaster General James Says the Time Has Arrived for an Increased Service.

London, Sept. 8.—Thomas L. James, ex-postmaster general of the United States, thinks the time has arrived for the establishment of a daily mail service between the United States and Europe. He said:

"Anglo-American commercial interests have developed until more frequent postal communication between Great Britain and the United States is imperative. Daily mail boats could be easily arranged for if the countries interested would co-operate to that end. Furthermore, postage should immediately be reduced to 2 cents. There is no reason why more should be charged for ocean than for inland transportation of mails. Probably the reduction will be followed by a temporary deficit, but shortly the increased volume of postal matter carried would more than compensate for any little loss at the outset. I am still of the opinion that the United States should establish postal saving banks in the interest of popular thrift. These institutions are doing a vast deal to promote prosperity and good citizenship in Great Britain."

Out a Child's Throat.
New York, Sept. 8.—Samuel Hayes, a plumber, is under arrest for attempting to take the life of his 10-year-old stepdaughter, Margaret de Campbell. Hayes last night, while intoxicated, walked into the child's bedroom and cut her throat while she lay sleeping in a cot. Her screams brought her mother, and the man was arrested. The child is in the hospital, where seventeen stitches were taken to sew up the wound, and the physicians have some hopes of saving her life.

Garrotted by Insane Woman.
Detroit, Mich., Sept. 8.—Lulu Turbenning, an insane woman confined in the Wayne county asylum, garrotted another female inmate named Rebecca Therman, causing her instant death. She tore a portion of her clothing into strips and then looped it around her victim's neck, choking her to death almost instantly. The tragedy was discovered by a nurse making her rounds and the woman was still pulling the cord when discovered.

Whip an egg lightly, add a tablespoonful of water and dip the plant, slice after slice, into the egg and then into bread crumbs. Put two tablespoonfuls of fat or lard into a frying pan, and when hot, saute the plant a few slices at a time, in it. Brown one side; turn and brown the other. As it is required add more fat, but wait each time until it has become thoroughly heated before putting more plant into it. Drain on brown paper. Farmer Digs Up an Aerolite.
Bowling Green, O., Sept. 8.—Isaac Ward, a farmer living several miles northeast of here, has in his possession a large boulder which fell a few days ago in one of his fields. It was found by some of his men cutting corn in a back field, and was dug up and drawn to Mr. Ward's yard with a team of horses. It is about two and a half feet long and two feet through and is much heavier than stone.

To Avoid Signing 54,000 Bonds.
Pittsburg, Pa., Sept. 8.—The reason why A. M. Moreland wished to resign his office as secretary of the Carnegie Steel company has leaked out. He did not want to write his name 54,000 times because this work could be done by a clerk. He has been putting his signature to the \$160,000,000 worth of bonds issued by the Carnegie company last spring. There are 54,000 of them and he is not half through.

Backache was the chief symptom and often caused me to suffer severely. I tried a number of remedies but continued to grow worse instead of better. I was finally persuaded to try Doan's Kidney Pills and procured a box at the Peoples' Drug Co's. store. I only took them a few days when I felt better. Should there be any recurrence of my trouble I now know what to use."

EIGHT THOUSAND
AT MONROE FAIR

THE BOWER CITY WELL REPRESENTED.

Prominent Local Residents Acted As Judges and Timers—Henry D. McKinney Drove In Fast Race—Fair a Big Success and All Were Pleased.

Monroe, Wis., Sept. 7.—[Special]—Eight thousand people marked Friday's attendance at the Green county fair held at Monroe. Janesville was well represented, there being a good sized delegation in attendance. The weather was cloudy in the early part of the day, but soon the clouds dispersed and sunshine appeared.

As early as 8 o'clock in the morning the streets of Monroe contained hundreds of teams from all parts of the county. By 10 o'clock fully 4,000 people were at the fair grounds. By noon it was difficult to get through the buildings.

The judging of live stock took place in the morning, the awarding of the horse premiums being in the hands of H. D. McKinney and D. W. Watt of Janesville. Their good work gave excellent satisfaction. At 1 o'clock the race program was called by D. W. Watt, who had been acting as starter.

In the judges' stand were O. F. Nowlan and Dennis Hayes of Janesville. The 2:35 trot brought out three starters. This event took three heats to settle. Victoria Phyllis owned by Dr. W. T. Witham, of Racine was awarded first place. The best time was 2:27.

In the 2:17 pace there were five starters and so close were the heats that it required five heats to settle the problem of first place. Col. Diston, driven by H. D. McKinney, of Janesville, acted bad and had to be satisfied with fifth place. The heats were all fast and exciting. The best time was 2:15, the race given to Ethel C. owned by F. D. Chesebrough, of Delavan.

An exciting running race finished the day's racing. Between races vaudeville acts took place in front of the grand stand on elevated stages. Three bands were in attendance and during the entire day the program kept on moving.

There were no dull moments and all went off most satisfactorily to the large crowd. The live stock exhibit is the finest ever shown in Green county. Every building on the grounds was filled with exhibits. The new half mile track is considered to be one of the best in the west. In fact the Green county fair this year will go on record as a winner. Five hundred people with a band were in attendance from Darlington.

The citizens of Green county should well feel proud of their fair this year and should not lose sight of the fact that no little credit belongs to the following efficient set of officials: W. W. Chadwick, president; B. G. Treat, secretary; Andrew Lewis, treasurer; Jacob Hoffman, vice president and John C. Chadwick, general superintendent.

FINE ORGAN RECITAL

Quality of the Concert Held at the Congregational Church Last Night Was Unusual.

Prof. George Whitfield Andrews of Oberlin, Ohio, assisted by Miss Pearne Peake of Beloit gave a highly enjoyable organ recital last evening at the Congregational church. The recital was given under the auspices of the ladies of the church and they have reason to feel gratified with the quality of the concert.

Mr. Andrews is professor of organ and composition in the Oberlin Conservatory of Music and is a master of his profession. His pieces last evening were perfectly rendered and were a delight to all present. He was frequently recalled and his encores were a constant surprise and delight.

The vocal solos of Miss Peake were perfectly rendered and in perfect harmony with the organ. Miss Peake has a pure soprano voice which is extremely expressive and well trained. Her unassuming manner adds much to the charm of her sweet voice. She sang "The Throstle," "Sleep Little Baby of Mine," and "Four Leaf Clover." The audience last evening was not large, but what it lacked in numbers was made up in appreciation. Janesville audiences do not take well to classical music and would turn out better if some of the selections were in a lighter vein.

Mrs. Frank Reynolds and Misses Mable Lewis, Jennie Baker, Mae Valentine, Grace Puhler and Belle Angell officiated as ushers.

The Lane That Had No Turning. Since venturing into Egypt in quest of the raw material of which fiction is made, Mr. Gilbert Parker's Canadian fields have been lying fallow. He returns to them however, with new vigor, and even fuller power, and the serial which he has just completed finds him at the highest dramatic level to which he has yet attained.

The Lane that Had No Turning is remarkable for its honest strength, thorough originality, and absorbing interest. The scene of the story is Pontiac, (whither Valmond came), and the period the middle fifties. The leading characters are Madeline, a famous singer, and her husband, Seigneur of Pontiac, for whom she dares all and risks all.

The Lane that Had No Turning will begin in The Saturday Evening Post for September 29, and run through five numbers.

Don't forget the excursion via C. & N. Ry. to Clinton, Ia. and 20 mile ride on Mississippi river, Tuesday, Sept. 11. \$1.50 round trip.

A NEW DEPARTURE
IN CHURCH WORKREV. M. KEMPTON WILL START
A CHILDREN'S CHURCH.

To Provide a Place Where the Little Ones Can Be Left While Their Parents Attend Service—Kindergarten Methods Will Be Adopted—St. John's Church Anniversary.

The Baptist church of this city announces that next Sunday it will start a "Children's church." "I have found," says Rev. A. C. Kempton, the pastor, "that there are many parents who cannot attend church because they have no one with whom they may leave their children. A child two or three years old can seldom be quiet in church and cannot be left alone at home, so the parents stay away also. Now we propose in our Children's church to provide a place where children may be left while their parents attend our public service Sunday mornings."

Next Sunday as worshippers enter the Baptist church they will see the words "Children's church" in plain letters on the doors of the church parlors. All mothers are invited to leave their children there in the charge of a number of capable ladies who have volunteered to look after them. Children from one to ten years may be brought. Two nice rooms are at their disposal. Toys in abundance will be provided. Everything possible will be done for their amusement and entertainment. Various kindergarten methods will be adopted. They will be carefully and tenderly cared for.

"We are sure," continued the Reverend Mr. A. C. Kempton, "that our experiment will be a success. As soon as people learn that their children will be just as well looked after in the Children's church as they are in their homes, they will be glad to bring them, and we will have all we can look after. We can easily take charge of twenty or forty each Sunday. Mothers who have been kept from church for months may thus attend regularly."

"The church will begin next Sunday, with a welcome to all, and will be continued each Sunday so long as the demand lasts. We guarantee to return each child, safe, sound and good-natured at the close of morning worship. The best proof that I believe personally in the children's church, is that I propose to have my own two-year-old child, and there next Sunday morning so that our housekeeper may attend divine service."

St. John's Church Anniversary.

The tenth anniversary of St. John's church will be celebrated tomorrow. There will be services both morning and afternoon in the North Bluff street church. Ten years ago the present church took life in this city and ever since it has enjoyed a most healthy growth of membership. Eighty well known families are now included in its ranks. For several years past different committees have been busily engaged in making the necessary arrangements and the result is that a most interesting program has been arranged. There will be services both morning and afternoon. In the evening a literary and musical program will be given. The church will be handsomely decorated the committee having the work in charge being George Rentschler, Carl Brockhaus and C. Kueck. Among the visiting Lutheran ministers to be here to assist in the celebration will be Rev. Giese, Plattville; Rev. Scherbel, Middleton, and Rev. Behrens of Harvard, Ill.

GOOD TEMPLARS
HAVE ADJOURNED

The annual convention of the Sixth District Order of Good Templars closed last evening.

The convention was one of the most successful in the history of the district. It has been the means of inspiring the lodges of the district to renewed efforts in the temperance cause. Grand Chief Templar Clarke gave the delegates a splendid talk in regard to the personal responsibility of each member and the individual lodges in dealing out the temperance cause.

A banquet was given the delegates by members of the Janesville Lodge, which was heartily enjoyed by all present.

The delegates left for their homes well pleased with the work of the last two days.

NEATH THE SHADOW OF DEATH

Barrington, rector of Christ church, officiated, and read the beautiful burial service of the Episcopal church. The floral offerings were many and beautiful. The interment was at Oak Hill cemetery.

Margaret Templin. Mr. and Mrs. Matthew Templin, who reside on the Ottoman farm in the town of La Prairie, are mourning the loss of their seven-months-old daughter, Margaret, who died yesterday afternoon at 5:30 o'clock, of cholera infantum. The little one was the joy of the household, and her death was a severe blow to her parents. Funeral services will be held from St. Mary's church Sunday afternoon at 2 o'clock.

If Division is What the Powers Are After the Mikado Will Take Fo-Kien.

Washington, Sept. 8.—Durham White Stevens, counselor for Japanese legation in Washington, has communicated to the state department a decision reached by the Japanese government that if an attempt should be made hereafter to bring about the dismemberment of the Chinese empire Japan would take possession of the rich province of Fo-Kien of which Amoy is the principal city.

The mikado's ministers are doubtless influenced by the consideration that as the United States have larger and more extensive interests in Amoy than any other city in China this nation ought to be notified of the program of the island empire, even though it is only tentative. The effect of the communication has been to jar the dream of harmony that the state department has been indulging in for a long time and hasten activity in the direction of opening negotiations for a final settlement of indemnities.

The Smart Set for September

The Smart Set for September is a distinct improvement over previous issues. The novelette of the number is of timely and extraordinary interest. It is entitled "The Leading Woman," and is by John D. Barry. It deals with the opening of the New York theatrical season and the ambitions and adventures of a talented young actress. In this story Mr. Barry takes his readers behind the scenes and sets forth the true stage life in a manner never heretofore attempted in fiction.

The witty Gelett Burgess contributes a farcical story entitled "Lady Mechant," that describes the adventures of a beautiful woman burglar. Mrs. William Allen, one of the lights of New York society, signs a story that she calls "The Love Letters of a Liar," and that will make a sensation at Newport and Narragansett Pier. Gertrude Atherton contributes a weird story, "The Greatest Good," that is sure to be remembered by all who read it.

Other contributions to the number, either of prose or verse, are Jessie Llewellyn, daughter of the former governor of Kansas; Duffield Osborne, Kate Masterson, Ella Wheeler Wilcox, Rupert Hughes, Charles G. D. Roberts, Minna Irving, Theodosia Garrison, Mrs. Findley Braden, Jeannette Scott Benton and Mrs. Paul Laurence Dunbar. In all there are forty-three signed contributions by writers well known for cleverness.

EVANSVILLE FAIR
WAS A SUCCESS

Board Will be Able to Meet All Expenses and Still Have a Snug Little Sum Left.

Evansville, Sept. 8.—[Special]—The fair was a success from a financial standpoint and the large number of people in attendance were heard commenting on the many attractions given by the directors.

The board spent money lavishly to make the fair complete in all details, giving the people all that they had advertised to give.

We have enumerated in other reports the many specialties given between the racing events but none were of more interest than that of the "race for the bride" given by Kemps Wild West in which Joe Field gave the cowboys a merry chase for the girl, suffice to say Joe is still susceptible to the charms of any young lady whom he may meet.

Another special attraction today was the exhibition mile run by Oddfellow to beat the track record of one-half mile of 52½ seconds. The first heat was a work out in 54 seconds, second heat was run in 50½ seconds. In this the horse and jockey were greeted with cheers when Pres. Campbell announced the time.

From here Mr. Brown will take Oddfellow to Portage where he is entered in the races and from the speed exhibited in today's exhibition he will be a sure winner.

Taken as a whole the fair was a success in every particular and the board will be enabled to meet all expenses with a snug little sum left to their credit.

MOVEMENT OF NEW
TOBACCO CROP

The movement of the new crop is attracting some little attention in Vernon county and reports reaching us indicate that five or six hundred acres have been contracted for at prices averaging around \$3c for delivery in the bundle. The growers are seemingly reluctant to set a price at present so that buying is not brisk.

It has been another busy week in the tobacco sections and the harvest has been pushed forward with all possible dispatch with the help at command. The weather has been favorable for rapidly securing the crop and by the close of the present week the great bulk of the crop will have been transferred to the sheds. The early harvested is curing satisfactorily under better weather conditions and some samples are being shown of entirely cured leaf.

The work of sampling the '99 packing is becoming quite general and while some damage is encountered the percentage is not alarming or greater than other years unless it be in a few exceptional cases. While there is considerable inquiries after old goods no sales of importance have reached us.—Edgerton Reporter.

The Christian Endeavor society of the Presbyterian church held a business meeting at the church parlors yesterday afternoon, after which a social was held and light refreshments were served.

GULF SWEEP BY A GALE.

Lives Are Lost Along the Southern Coast.

GOVERNMENT MEN ARE LOST.

Vessels Wrecked Off Florida and Two Crews Missing—Jetties Are Damaged Along the Mississippi—Damage to Jamaica.

New Orleans, La., Sept. 8.—The storm which has been expected for several days broke, and all the southern coast of Louisiana has been swept. The sea water has been backed up to the Mississippi river levees on the east bank. Dr. R. H. Burford and Superintendent Quinn, government officers at Fort St. Philip, went down the river in a catboat on Thursday evening, and Friday evening late the boat was found floating bottom up. They were unquestionably drowned. The damage to crops from sea water is large. The wires on the east bank of the river to Port Eads went down at 6 o'clock this evening.

Hurricane in Florida.
Miami, Fla., Sept. 8.—The tropical hurricane which has done considerable damage on the islands of Jamaica and Cuba struck the Florida coast. The wind at one time reached a velocity of nearly 100 miles an hour. It is feared that the crews of at least two vessels were swept overboard about thirty miles south of here. No damage was done at Miami. The barkentine Culboon, Capt. Richter, of St. Johns, N. B., laden with 330,000 feet of lumber, is ashore five miles south of Casyfoot light, about thirty-five miles south of Miami. Three miles south of the Culboon is a deserted lumber-laden bark, which stranded during the night of the 5th. The crew, it is feared, was swept overboard during the storm.

Gale at West Palm Beach.
West Palm Beach, Fla., Sept. 8.—Considerable damage has been done in this section by the tropical hurricane which struck here. The gale continues. The bulkhead of the immense Palm Beach pier was swept from its foundations and washed several hundred feet to the north. A number of small boats which were anchored in the inland lakes were torn from their moorings and sunk.

Damage in Jamaica.
Kingston, Sept. 8.—A terrific storm swept over this island. The rivers are all flooded and great damage has been done to the banana plantations. Miles of the railroad track have been washed away. The torrential rains which were a feature of the storm continue. The losses will amount to thousands of pounds.

Sad Blow to Mill Workers.
Pittsburg, Sept. 8.—The Fifth Avenue Savings and Loan association of McKeesport, Pa., is insolvent, and the Mercantile Trust company of this city has been appointed temporary receiver. An alleged discrepancy of \$32,000 has been discovered in the accounts of a former secretary, but no proceedings have been instituted.

Indian Chief Stoned to Death.
North Yakima, Wash., Sept. 8.—Chief Illowah, an old "medicine man" and chief of the Yakima tribe, has been stoned to death in his tent by an Indian named John. Illowah had been called on by John to save his sick child. The old doctor went through the usual formalities, yet the child died. The father went to the medicine man's tent and stoned him to death. John was next in line to the chieftainship and had long desired the death of Illowah.

Normal School Plans Up.
Springfield, Ill., Sept. 8.—The board of trustees of the Western Illinois Normal school met here and discussed plans for a new building. There are two plans submitted, each of which would cost at least \$300,000.

There is but \$75,000 available for building purposes under the appropriation, but the bid calls for a building to accommodate 500 students.

Bulgaria Yields a Point.
Sofia, Sept. 8.—In retaliation for the expulsion of Bulgarians from Roumania the government here passed severe restrictive measures against Roumanians. Roumania, however, successfully protested against these measures and they were repealed. The relations between the two countries are somewhat improved.

Delegates from Britain.
London, Sept. 8.—The trades union congress, in session at Huddersfield, has selected John Weir of Dunfermline, Scotland, and Peter Nolan of London as delegates to the coming convention at Louisville.

New York Tragedy in Brooklyn.
New York, Sept. 8.—John Rieder, a veteran of the civil war, killed his wife and himself at their home in Brooklyn. He was 69 years of age and his wife was 20 years younger. Jealousy was the cause of the double tragedy.

School Official Is Dead.
Duluth, Minn., Sept. 8.—James Hannan, one of the assistant superintendents of schools of Chicago, died here where he had come in the hope of recovering health. The cause of death was pneumonia.

FOREST FIRES IN MAINE.

Flames Destroying Miles of Timber and Threatening Cities.

Bangor, Me., Sept. 8.—After two months of drought innumerable forest fires are sweeping through eastern Maine, destroying miles of timber lands, while the people in the small mountain towns are all out ready to save their homes and property. The fires are making the greatest havoc in Hancock and Penobscot counties. At Oldtown the fire department and citizens have been on duty all day, while the wind sweeps great sheets of flames across the river and into the village. In Hancock county 500 men are working day and night fighting the flames. Another fire is raging near Washington Junction, and a report received from there tonight says that the towns of Franklin and Hancock are in imminent danger of destruction. The fire has spread towards the city of Ellsworth and is now within half a mile of Senator Hale's residence and still drawing nearer. The senator has hired a large number of men to attempt to save his buildings. At Ellsworth the fire department is staying up, with apparatus ready to start at a moment's notice. Fire is burning near Cherryfield, in Washington county. At South Brooksville a fire is bearing down upon Ames Point, and the property there, which is owned by Prof. Ames of Tufts college, is in imminent danger.

Power Company Blamed.
St. Louis, Mo., Sept. 8.—Coroner Lloyd has rendered a verdict, finding the Seckner Contracting company responsible for the death of Patrolmen John P. Looney and Nicholas Beckman, who were killed several days ago by electric shocks while using the police telephones. The coroner said he found that the Seckner company's power wire, which had crossed with the telephone line, was improperly placed, causing the death of the officers named.

Fourteen other officers who were severely shocked and burned at the same time are recovering.

Deer Stop Colorado Trains.
Glenwood Springs, Colo., Sept. 8.—Great groves of deer are crossing the tracks between Grand Junction and Glenwood Springs, and at times seriously interfere with the passing trains. There are from 10,000 to 20,000 animals in one large drove, and when this was passing the road was blocked for nearly two hours. In winter approaches they collect in immense herds and start for winter pastures and salt licks several hundred miles to the south.

Fall Kills C. J. Gilbert.
Evanston, Ill., Sept. 8.—Charles Judson Gilbert, one of the oldest residents of Evanston, died at the Evanston hospital from injuries received by falling down a basement stairs. Mr. Gilbert was born in Lima, N. Y., in 1829. When a young man he went to St. Louis and started in the grain commission business. While there he was in partnership with E. O. Stannard, who afterwards was governor of Missouri.

Plague Situation Improves.
Glasgow, Sept. 8.—The plague situation in the city is improving. Nine suspected cases were discharged last night. The disease is certainly abating and the authorities have it under thorough control. A peculiar case was reported this forenoon from the industrial suburb of Riverside. The medical man who made the report certified that the patient was suffering from "pneumonic plague," not from bubonic.

Ninth Cavalry at Nagasaki.
Washington, D. C., Sept. 8.—The war department has been informed of the arrival of the transport Warren at Nagasaki with two battalions of the Ninth cavalry and recruits aboard. The health of the troops is reported to be excellent. The Warren will proceed to Manila.

The department also is advised of the arrival of the animal transport Aztec at Kobe with horses for the Third cavalry aboard.

WOMEN! REMEMBER THIS.

A Woman who Doctored Eight Years and got No Relief Cured by Lydia E. Pinkham's Vegetable Compound.

"Before taking the Vegetable Compound I was troubled with irregular menstruation, and suffered great agony. My physician gave me morphine, and I remained in bed. I doctored eight years and got no relief, and the doctors told me there was no relief for my trouble. Finally I tried Lydia E. Pinkham's Vegetable Compound. While taking the first bottle I felt that I was improving. I have taken seven or eight bottles, and never had anything to do me so much good. Every month my troubles have grown less and less, and now at this time I am cured." Ella Quinney, No. 22 Stage Street, Haverhill, Mass.

Another Woman Who Acknowledges the Help she has Received from Mrs. Pinkham.

"DEAR MRS. PINKHAM—The doctor says I have congestion of the womb, and cannot help me. There is aching in the right side of abdomen, hip, leg, and back. If you can do me any good, please write." Mrs. Nina Chase, Fulton, N. Y., December 20, 1897.

"DEAR MRS. PINKHAM—I followed your instructions, and now I want every woman suffering from female trouble to know how good your advice and medicine is. The doctor advised an operation. I could not bear to think of that, so followed your advice. I got better right off. I took six bottles of Lydia E. Pinkham's Vegetable Compound, and used three packages of Sanative Wash; also took your Liver Pills, and am cured." Mrs. Nina Chase, Fulton, N. Y. December 12, 1898.

Mrs. Voss cured of Periodical Pains and Persistent Headaches by Following Mrs. Pinkham's Counsel.

"DEAR MRS. PINKHAM—I have been suffering for over a year and had three doctors. At time of menstruation I suffer terrible pains in back and ovaries. I have headache nearly every day, and feel tired all the time. The doctor said my womb was out of place. Would be so glad if you could help me." Mrs. Carl Voss, Sac City, Iowa, August 1, 1898.

"Please accept my sincere thanks for the good your advice and Lydia E. Pinkham's Vegetable Compound has done me. I did everything you told me to do, and used only three bottles, and feel better in every respect." Mrs. Carl Voss, Sac City, Iowa, March 23, 1899.

NOT UNDER MORTGAGE.

But the Farmer Had More Than That to Vex Him.

It came out as I journeyed on horseback through Dakota that almost every settler's land was under mortgage, and one day when I came upon a pioneer seated on the grass by the roadside with a troubled look on his face I asked him if it was the mortgage he was worrying about.

"Wuss than that, stranger," he replied as he looked up wearily.

"Sickness or death in the family?"

"Wuss than that."

"Then it must be a calamity indeed. You didn't lose family and home by a prairie fire?"

"Nope, but you are right about it's been a calamity. I've been tryin' to think of that word for two hours past. Yes, sir, you can put it down as an awful calamity."

"But won't you explain?" I persisted.

"I will, sir. Thar was a mortgage on the claim, and I was feelin' as big as any of my neighbors and takin' things easy when my wife was left \$600. Stranger, dare I tell you what she did with that money?"

"She didn't lose it?"

"No, sir. She jest paid that mortgage, bought two horses and a plow, and this mornin' I was bounced out of my own cabin becase I wouldn't peel off my coat and go to work! Yes, sir, you are right. It's a calamity, a calamity that's landed me on the outside, and between my durned pride and her blamed spunk' somebody'll be eatin' grass afore Saturday night!"

M. QUAD.

It Remains to Be Seen.

A smart young lady recently entered a railway carriage occupied by three or four members of the opposite sex. One of them, in the familiar style we know so well, produced a cigar and his matchbox and said:

"I trust, madam, that smoking is not disagreeable to you?"

"Really, sir," with the sweetest of smiles, "I can't tell, for as yet no gentleman has smoked in my presence."—Pick-Me-Up.

Lose No Time.

"Do you find, judge," asked the fair young woman, "that most of those who appear before you with petitions for divorce are people who were married in haste?"

"Well, I don't know as I can say that they are," he replied, "but there's one thing I do know."

"What's that?"

"Most of them marry in haste as soon as the divorces are granted."—Chicago Times-Herald.

He Felt the Shock.

"Electricity in the atmosphere affects your system," said the scientific physician.

"Yes," said the patient who had paid \$10 for two visits. "I agree with you there are times when one feels overcharged."—Chicago News.
